I'm sending this email in follow up to our telephone conversation yesterday about the subject business' monopolisation of on-street parking in the area because it does not have sufficient on-site parking. What a coincidence that you are working on a similar problem elsewhere in CD 11.

Executive Van Rental may also be operating as Airport Rent a Car. Its address is 9200 S Sepulveda. Telephone is 310-417-2221.

We are wondering if the business is in violation of its planning permits. Or another City Code provision. Any information or assistance you can provide is appreciated.
